2026 Candidate Questionnaire

Candidate Name: Eric Felber - Latrece Hawkins Lytes
Position: Governor

What unique strengths do you have for this position and what do you hope to accomplish if (re)elected?

Ultra progressive democratic ballot to increase minimum wage, build affordable housing, free public transportation and education, while making the streets safer. Our lieutenant governor, Latrece Hawkins Lytes, is a community advocate for organ transplantation and diabetes education. The governor candidate is Eric Felber, who has fought every single day for two decades in Maryland to make people feel better, fix a broken medicine system and economy, and to make the community a better place. Together, as a team, Latrece and Eric have spent our lives fighting for and helping the community and will do whatever it take to make people feel better.

What can Maryland do to address the need for clean energy sources, especially in the face of federal cuts to off-shore wind power projects and proposals like the Piedmont Reliability Project's high-tension electrical line?

Protect the environment and give more funding to clean energy sources to offset the federal cuts. Wind, solar, and other options are crucial to protect the future of our planet.

How do you propose to remedy the disparities in economic and educational opportunities across the state?

Correct the disparity with equal funding and opportunities across the state. Everyone deserves the same opportunity for education and economic growth. No one deserves to lose their job or educational opportunity.

How will you ensure Marylanders' rights and wellbeing in the face of current federal policies?

Our top priority of our campaign is to put Maryland First unlike the current administration which has put Maryland jobs, rights, and wellbeing last. We will not be unresponsive to the wellbeing of Marylanders like the current administration. Jobs will not be lost, businesses will not be shuttered, and safety will not be diminished.
