

2026 Candidate Questionnaire

Candidate Name: Christina Pumphrey

Position: School Board

District: 6

What are your fundamental personal values that will guide your proposals and decisions if elected to the Board of Education?

Every student has a fundamental right to public education and should have equitable access to education. Students should be the center of every decision we make as a Board.

What is your position regarding bans on books and specific curriculum content in schools?

I do not believe in book bans. I believe our current health curriculum in Baltimore County fits the needs of our students.

Is your campaign accepting funding from PACs and/or out-of-state or out-of-county donations?

I will accept personal donations from personal family and friends that live outside of Baltimore County.

What is your position permitting students to opt out of certain portions of the approved curriculum? If in favor, how would that work in practice?

I am not in favor of permitting students to opt out of approved curriculum.

How will you address the funding losses you will experience as the Federal funding shrinks? If you would recommend cutting programs, which ones would those be?

As a Board we need to work collaboratively along with the school system and community stakeholders to review the budget. We need to reduce waste and prioritize spending that directly supports academic achievement as well as our teachers and staff. We need to continue to prioritize classroom instruction, wrap around services that support our students and teacher recruitment and retention. I also support the school system's exploration of alternative funding sources, such as grants.
