What legislation would you champion to address immigration reform? What do you think is wrong (or not) with the current way immigration is being handled? Which specific civil rights of immigrants need to be protected?

immigration is really the key to the US future of a thriving productive country if governed correctly. first we have to stop the demonizing of our Neighbors across the southern border. and we have to legislate a bill that is current with the times. which means a more humane processing systems to speed up the documentation of legal immigrants to rights of citizenships and humane process of deporting illegal immigrants. If the US and Mexico work together with a joint jurisdiction plan to educate illegals of the process and procedures to become legal to cross our borders. this would decrease the population of illegal crossings and unnecessary deaths and hardships of immigrants and minimize cost of tax dollars for border security.what I think what is wrong with it, they are not addressing the root cause of Mass illegal immigrant crossings. The rights of due process.which means Amend or Abolish the Laken Riley act.

How would you address threats from the federal government to cut funds to rebuild the Key Bridge?

Address DEI Contracting Concerns. The administration has specifically criticized "unconstitutional" DEI contracting practices that prioritize race/gender over completion. Adjusting or removing such requirements in the contracting process may be required to maintain federal support.
